## Community College

**Electrical Power  
Technology**  
In association with  
**Coffeyville Comm. College**

Pratt Community College offers one of the most comprehensive Electrical Power Technology Programs in the nation. One of only two in the state of Kansas, it offers students a variety of convenient ways to attend classes through on campus courses, distance education and on the job training.

Electrical Power Technology also offers degrees in Applied Science and Job Certification. The program fills up quickly and we encourage students to enroll quickly. EPT does not keep a waiting list and fills classes on a first come, first served basis.

Students are required to interview for a spot in the classes, at which time they may pre-enroll for their classes next fall.

Pratt Community College is a comprehensive community college, providing general education as well as technical education and business and industry training. Students can transfer to a 4-year university or enter the workforce upon graduation.

Pratt's main campus is 70 miles west of Wichita located in Pratt, Kan. It was founded in 1938. PCC has an eLearning Center located in Wichita and offers general services and online courses.

PCC Partnerships include: Pratt/Cowley Nursing Cooperative; Barton County Community College Partnership; Coffeyville Community College Partnership; Dodge City Community College Partnership.

**EXPERIENCE**  
**The Pratt Difference**

**Learn from the Best. Experience the Difference. People. Programs. Service.**

Pratt CC and Coffeyville CC's EPT Programs have a 95 percent placement rating. All students are required to take part in a paid internship during the summer, which the instructors will help the students find one suited for them.

Pratt's EPT Program has been around for almost 30 years and during that time has established partnerships with more than 15 businesses.

Combined, the three instructors have over 50 years of line experience.

While in the program students will:

- Climb daily
- Get exposure to underground installation
  - Go to Hotline School
  - Learn Electrical Theory
  - Learn about Safety
  - Transformer Hook-ups
- Learn Basic Line Construction
- Receive Trencher/Backhoe Training
- Get exposure to Digger Derrick Operations

Students will also have the opportunity during class to get their Commercial Drivers Licence (CDL) and become certified in first aid and CPR.

**"I have learned a lot through Pratt's EPT Program. I am excited to take what I learned in the classroom and on the field with me to my job."**  
- Martin Herrera  
Sophomore

To be accepted into the EPT program, students must:

- Apply for admissions
- Pay a deposit
- Visit the campus
