

NOTE: In order for courses to be transferable to K-State, a sequence of courses may be required at the transfer institution to receive credit. This required sequence varies from institution to institution and is different for various majors on our campus. Please confirm with an advisor or the department office at our campus to positively identify the requirements for your degree path.

PRATT COMMUNITY COLLEGE (KS)

Transfer Courses	Kansas State University Equivalent
ACC232 <i>MANAGERIAL ACCOUNTING</i>	ACCTG-2.**

Understanding the K-State Course Display

- A fully equivalent course will have the K-State course number and title listed
- Courses with equivalencies such as ACCTG-1**, MATH-2**, TRANS-1** are transferable, but must be evaluated by the K-State college/department of your intended major to see how they will be applied to your degree requirements.
- Courses listed as "no transfer" will not transfer to K-State.
- Developmental courses below 100-level may transfer to K-State but are not applicable to any degree program.
- "Eval Pending" means the course evaluation is in progress.
- If a course is not listed, please e-mail tfradmit@k-state.edu. Provide as much detail as possible, so the course can be evaluated for transfer equivalency.

K-State Undergraduate Transfer Credit Policies

- Most academic credits from regionally accredited community colleges and universities are transferable to K-State. Up to half of the hours required for a K-State baccalaureate degree can be taken at a two-year college.
- Not all credits of an associate degree may be applicable toward a bachelor's degree; additional freshman, sophomore, and general education courses may be required to meet degree requirements.
- Transfer grades do not become part of your K-State grade point average.
- A grade of "D" will transfer to K-State, but these courses may need to be retaken, depending on the major entered.
- At least 30 credit hours must be completed at K-State to earn a degree. Twenty of the last 30 hours should be resident K-State credit. Major field courses are usually completed in residence. Courses taken through the K-State Division of Continuing Education are considered resident credit.
- A minimum of 45 hours must be at a course level of 300 or higher.

Disclaimer

- This is not an official evaluation of your transfer work and should only be used as an unofficial guide. You will need to apply for admission at <http://www.k-state.edu/admissions/apply/> and send official transcripts from every institution where you have enrolled/attempted course work in order to prompt an official evaluation.
- The listings you see on this site are for classes as they are currently evaluated. If you took a class previously, apply for admission at <http://www.k-state.edu/admissions/apply/> and send in transcripts for an official evaluation to confirm how those classes will apply to your degree.
- Information on this webpage is subject to change without notice and is continually updated.
- Equivalency of a course does not guarantee that the course will apply as transfer credit to your intended major.
- K-State attempts to maintain complete evaluations for the Kansas community colleges.
- If you change your major, courses will need to be reviewed again by your new department and/or college to determine how they will be used toward your degree.
- Course evaluations change for various reasons, so if questions arise regarding the evaluation of the course please e-mail tfradmit@k-state.edu.
