II - Status Report on Conditions and Notes

II – Status Report on Conditions and Notes:

If there are any notes and/or conditions placed on your business programs, you will need to report your progress towards removal here. Please copy and paste the wording for the note or condition into the institutional response box or reference the standard and criterion for the note, i.e., Standard 4, Criterion 4.1.

If you are unsure of the notes or conditions, please check the board correspondence found in the evidence file tab.

Institution Summary

Place Note on Standard 4 –The board would like to see program specific outcome measures instead of General Education measures such as CAAP. We look forward to reviewing evidence of program trends in the next QA Report.

PCC's response: We added a few assessments since our last QA report, provided better trend data, and labeled our assessments better. PCC requires all AS students to take an exit exam, and we recently changed from the CAAP to the ETS test. The Business Department feels that we have ample assessments in Standard 4 not including the new ETS test. We want to continue collecting data on reading, writing, critical thinking, and math since much of their transfer degree is general education, and since these are skills that we want our transfer business students to know.

Please find a copy of Standard 4 in both Excel and .pdf formats located in the evidence file at:

<https://acbsp.campuslabs.com/4179/evidence>
