

WEEK FOUR!

Tuesday 9/8 Jackbox Games: Guesspionage Zoom 9PM

Guesspionage is quite simple: Guess the percentage (From 0% to 100%) of people who answered yes, or no, to a survey question. The closer the player is to the correct percentage, the more points they gain. The other players can also guess if the guessed percentage is higher or lower than the true percentage to gain points themselves, even not during their turn. To Play you will need a computer or two mobile devices. There are 8 players per round.
