

# Associate of Applied Science Degree (2026-2027)

The Associate of Applied Science degree program is to prepare the students to enter an occupation or a closely related cluster of occupations after two years of full-time study. It is a technical or occupational degree program, which means that most students in the program are learning a specific trade or practical skill which they hope to make their career. Students seeking an AAS Degree must major in an occupational program of study. Most candidates for the AAS degree do not transfer directly into a bachelor's degree program; however, Pittsburg State University, Fort Hays State University, Wichita State University, Kansas State University, and Emporia State University have some specific programs which closely parallel the requirements at Pratt Community College. In particular, Pittsburg State University encourages students in certain technology majors to transfer to its bachelor's degree program in technology. PCC holds certification as an area vocational school, so vocational programs consist of courses which are accredited as college level credit but are also recognized as fulfilling the competency-based requirements of vocational training schools.

## Communications 6 hours

- a. ENG135 Writing for the Workplace or higher
- b. COM106 Interpersonal Communications, COM130 Communication for the Workplace, COM131 Speech Communications, or COM276 Public Speaking
